EDUCATION

California Polytechnic State University — San Luis Obispo, CA

Bachelor of Science in Computer Science

September 2022-June 2026

- **Major GPA:** 3.71 | Overall GPA: 3.51
- **Honors:** Dean's List Winter 2023, Spring 2024, Fall 2024, Winter 2025, Fall 2025
- **Relevant Coursework:** Financial Accounting, Cloud Computing, Algorithms (Python), Object-Oriented Programming (Java), Data Structures (Python), Intro to Computer Organization (RISC-V/C), and Discrete Structures

Chaminade High School
High School Diploma

Mineola, NY
June 2022

EXPERIENCE

Iconectiv

Product Management Intern

June 2025-September 2025

- Designed an **AI-powered** solution to efficiently resolve 200+ customer support issues.
- Expanded technical documentation to improve clarity and usability for the current system.
- Developed an automated **Excel-based** tool to streamline and accelerate the phone number porting process.

Digital Democracy

Software Engineer Intern

January 2024-June 2024

- Developed an **AI-powered** voice recognition system to identify legislators from speech patterns, significantly reducing the need for manual review.
- Enhanced a web scraping system in **Python** to improve data collection efficiency and accuracy.
- Optimized a web application using **Java**, improving performance and usability.

Digital Transformation AI Hackathon — San Luis Obispo, CA

Cybersecurity Team Lead

April 2024

- Led a team to develop an **AI-powered document search tool**, winning first place.
- Utilized **AWS S3**, **Amazon Bedrock**, and **OpenSearch** for fast and accurate database queries.
- Conducted vulnerability analysis to mitigate risks like SQL injection and side-channel attacks.
- Presented the solution to a panel of judges, highlighting the technical architecture, cybersecurity features, and the system's potential to streamline public service workflows.

Projects

Wealth Path | *Next.js, Supabase, TypeScript* | github.com/RyanSchmit/Budget

- Built a full-stack personal finance app with **AI-powered** transaction categorization, reducing manual data entry
- Integrated an **LLM** to answer natural language questions about spending habits and financial goals
- Designed a Supabase (**PostgreSQL**) schema with deduplication logic to ensure clean transaction data

Leadership & Activities

CP Security Club

San Luis Obispo, CA

Social Chair

2023-2025

- Competed in Capture The Flag (CTF) challenges, focusing on binary exploitation, reverse engineering, and network vulnerabilities.
- Explored **cloud security best practices** and emerging threats at industry conferences like **BSides**.
- Organized workshops on cybersecurity topics, including DDoS mitigation and secure application development.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, JavaScript, TypeScript, SQL
- **Technologies:** React, AWS, Firebase, GitHub, Jenkins, CI/CD Pipelines
- **AI tools:** GitHub Copilot, ChatGPT, Claude Code
